

PERSONAL

"I believe my life is a testimony to people. It shows how great the Lord is. I have been healed from mental health issues completely and I am now able to run my own vegetable business."

Halieli Rilayo

A FAMILY BELONGS TOGETHER

"My heart is full of love and I respect everyone the way they are. I want to give children, what I did not have when I was a child. I dedicate my life, for them to have a family."

Nixon Simba

FOUNDER'S VOICE

"Awsome little heaven"
"Very welcoming"
"I felt like home"
"Gorgeous Garden"
"Amazing place"
"Perfectly relaxing"
"Exceptional"

GOING TO SCHOOL WITH KIPEPEO

It is obligatory, but not a matter of course, that every child in Tanzania can go to school. Even if the government schools do not officially demand a certain contribution, money must be invested for the meal at noon, for school materials and uniforms.

We are committed to help children who cannot go to school for individual reasons. Very soon you will be able to take over a sponsorship. For more information, please contact us personally!

TEAM

Zakayo Mzaki, who has been part of Kipepeo's local Team since its beginning has started a new chapter of his life and followed some other dreams of his.

We appreciate the time very much when we were blessed by your presence, Zakayo. We will remember the warm heart you have, your kindness, your steady open ears and the humor you brought to work every single day. Thank you for the knowledge about culture and community, about video and socialwork which you have shared with us.
Good things are ahead, we all trust in that.

FAMILY UPDATE

Moving from the Masai to another community which's place is called Kaloleni, we meet a variety of new people. Those Families face different problems, have unique dreams and own possibilities to grow. Right now we do a lot of social work in order to get to know each other well before we empower our new Families. As well we do still visit the previous communities to evaluate their growth. It is always heartwarming to see them again.

SUSTAINABILITY

Kipepeo owns one hectare of fertile land since May 2022. It can be used from October 2022. The next steps for this will be:

- ♦ Build a fence around the land.
- ♦ Laying a water pipe
- ♦ An electricity cable from the village to our land
- ♦ Building a small house
- ♦ Building shelters for the animals
- ♦ Planting trees and the land
- ♦ Keeping the first animals

We are happy to accept financial help for this.

KIWAHI HOME provides shelter and work to two people out of the community. It is hosting visitors from many different countries and donates by now every month 10% of their earnings to Kipepeo Family Foundation. Students from abroad absolving an internship in Moshi are living in a safe home during their stay.
