

THANK YOU

"It's not that I didn't love my child enough to not leave it alone. It is that I did not know how we would survive if we'd have stayed together. I saw no other choice but to leave my son in the village and hope that someone would take care of him better than I could. Today I know that there is help I can ask for and count on. You are part of it. I thank you for being there for me and many other women. It means a lot to me."

Malikia Athmani, widow

5 YEARS OF KIPEPEO

- ◆ Kiwavi Home
- ◆ Go to School with Kipepeo
- ◆ Boys; Street Outreach
- ◆ Farm for Sustainability

5 PROJECTS

FOR YOU

With a heart full of gratitude, we share a few events of the past half year with you here. Without your support we could not have done this work. Every story you read here, shows part of what we have been able to do with your help.

FAMILY SUPPORT

Supporting families has been our main work since the foundation. In the last six months, our team has done their daily social work and helped the families to become self-sufficient with various solutions. The goal is always that the children can grow up with their relatives and that the responsible persons (*parents*) are financially and socially able to provide for the basic needs of all family members.

Examples:

- ♦ Capital and assistance for the cultivation of rice, corn or beans.
- ♦ Donation of livestock
- ♦ Health-related aid
- ♦ Start-up capital and support to start small businesses (*selling vegetables at the market, running a small shop*)
- ♦ Construction/renovation of living space

KIWAVI HOME

In our hostel we accommodate guests from all over the world. People are climbing Kilimanjaro, planning a trip to the nearby national parks or do voluntary work in Tanzania.

The salaries of the staff, renovations and any other costs that are needed for the hostel's operation are fully covered by the hostel's income.

Since January 2023, the Hostel donates 5 USD per person per night directly to the Kipepeo Family Foundation.

GO TO SCHOOL WITH KIPEPEO

Would you like to become a sponsor and enable a child to go to school while it has still a good relationship with his/her family?

Secondary school	1 year	686 USD
Vocational training	1 course	686 USD
Primary school	1 year	213 CHF

**The budget includes school fees and materials, uniform, a hot meal per day and accommodation for the older children.*

BOYS; STREETOUTREACH

Twice a month we eat together with the boys living on the street. Aim is to gain their trust and create together with them a future that is safe and worth living. Reunification with their family of origin and the opportunity to do an education with our project "Go to school with Kipepeo" are helps we provide.

Facts:

- Most of the children living on the street are boys. Girls get involved in prostitution or work in a household for accommodation and food.
- A high percentage of children affected by the street are not orphans. They usually have living family members.
- Some of the children live on the street part-time (to earn money and living), others full-time (included sleeping).
- Reasons why children are running away from home are: Lack of provision of basic needs, abuse of any kind, lack of finances.

Juma, vendor

In total 10 boys have been given a new perspective for the future in the last 6 months.

Ashraf driving school for trucks
Gilbert secondary boarding school
Yona learning how to read and write
Rafael working and living at Kiwavi Home
Elsafi Electrician for vehicles
Juma street vendor (picture below)
Ally carpenter
Ali secondary school boarding school
Iddy car mechanic
Kelvin car mechanic

FARM FOR SUSTAINABILITY

We are looking forward to the time ahead. As soon as the rainy season is over, we will build our own farm. The appeal for donations in spring was successful and we received enough funds to build the infrastructure and the stables.

At the moment, we are growing corn and beans, which later will be given to the families as meal packages. Around the field we have planted trees which are now thriving with lots of rain and warm sunshine.
